

Tebu Conference Activities and Team Development Programs

It's about fun really. We specialise in putting a smile on your face through activities that are totally unique, led by a fantastic team of facilitators and are active and healthy. Whether it is SERIOUS FUN or SERIOUS TEAM DEVELOPMENT you're after, your activities provided by Tebu at O'Reilly's Rainforest Retreat will add enormous value by blending the local environment, your outcomes and themes of your conference into them.

From Dancing and Singing, to Giant Games and Laser Tag, or Movie Making to Cold Blooded Murders (the pretend kind of course!) there are a whole range of options to choose from.

No matter who you are our activities and sessions are chosen to reinforce:

- Principles of High Performance Teams
- Shared goals
- Bringing talents, ideas, energy and an open willingness to participate together
- Fun and enjoyment in our work life

Your team will be grooving in the office after this fun activity. Dances such as rock'n roll, salsa, hip hop and disco will get your crowd soaring. Professional dance instructors spend the afternoon guiding

your team through a dance routine. Each group then performs their routine during a gala dinner, to rapturous applause of course, with the help of an MC and DJ to set the scene. So you think you can't dance...think again!!

Can your team produce an ad worthy of Saatchi and Saatchi? Can they produce the next 'Buzzzz' in advertising and get everyone talking? Each team is an advertising agency and assigned the

challenge of creating an entire campaign for your business. That's right! Design newspaper, magazine, radio and TV ads, then present them in a hilarious presentation to other teams.

Prepare yourself for a night of hysterics and brutal cold blooded MURRRRDERRR. A murder has taken place at O'Reilly's and your group is there under false pretences. Group genres vary from the escapees on

the run from the local criminally insane hospital to the members of 'New and Better Nation'. You may be sitting next door to the Western Shin Boners, record wooden spoon losers whose combined IQ is in the teens. Getting them to remove their footy boots at the door was a real effort and if only they would stop singing that damn club song and staring at the super models from Alabama USA...Get the picture? If a cold-blooded murder puts you off your food, we can organise this event without dinner!

A TOP SECRET Government message is hand delivered to your team...

It tells you that a vital piece of the recently launched Sat Lab IV Satellite has crashed to ground in your area and the economic

future of the nation is at stake. Your team has been chosen to perform the search and rescue

mission. With little information to go on, you manage to lay your hands on a compass, GPS, metal detector, rope and car keys. How will your 'rabble' transition into a crack, high performing search and rescue team? How will your team bring back the pieces of Sat Lab IV and have it assembled and transmitting by the deadline? With the eyes of the nation upon you, it is now your team's chance to shine...there's not a minute to spare...

From Monte Carlo to Vegas...roll the dice with James Bond, Al Capone and all the glitz and glamour of the Vegas Showgirls. Our Casino nights include authentic tables, crazy

auctions, horse races and are fully MC'd so you feel like it's Vegas Baby...Vegas!

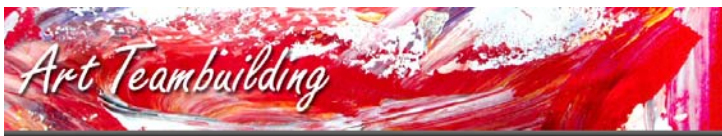

This movie making spectacular will make your conference come alive! Teams write, direct and star in their own mini-movies, immortalized on DVD! In this highly involving cinematic adventure, participants are divided

into groups representing film production companies. The challenge: create the next Hollywood blockbuster! Each team is given cameras, MP3 players, Scripts, Costumes, Makeup ... and a deadline. Who will be the actors? Who will direct? Clearly, serious teamwork will be essential for success in this anything-but-serious event. It all comes to an hilarious climax with a glitzy Oscars Awards Ceremony, hosted by none other than Bill Colons, esteemed head of the "Hollywood Academy Committee". The excitement is contagious as each team screens its blockbuster at the premier

Looking for something with a 'Wow' that is hugely fun and engaging which delegates will never forget? Then have a duel with the masters from this ancient sport. Kendo combines the elements of Eastern Thinking and

the challenge of Japanese Sword Fencing into one powerful and exhilarating event. It teaches self-trust, being intuitive, commitment, raising the bar, having confidence within, and strength of mind and body to follow through.

Many people feel they don't have a creative bone in their body – yet up to the age of 10 or 11 we all loved to create!! Where did the creativity go? What is the benefit of having it in the workplace? Working with a professional

artist, teams discover the tricks of Leonardo, Picasso and Van Gogh as they rediscover their creative potential and put it to the ultimate test. How? By turning ideas and thoughts into a masterpiece that they never thought possible!

Tebu runs many more programs and we usually like to talk you through them to find out which will suit your conference. We also customize and combine our programs so if you have ideas about how you'd like them to be run just let us know.

Every event at O'Reilly's receives a free conference energiser or focus session. Sessions can be built around such things as Leadership, Communication, Understanding Others or Valued Diversity. The exclusive focus group at Moonlight Crag is one of those sessions not to be missed.
